## Purpose of the District and this Report

The District is a local unit special-purpose government of the State of Florida, created and established in accordance with Uniform Community Development District Act of 1980, Chapter 190, Florida Statutes, as amended, for the purpose of providing, operating and maintaining infrastructure improvements, facilities and services to the lands within the District.

This assessment methodology report describes and explains the special assessments for operations and maintenance (the **“O&M Assessments”**) levied in connection with the Palms of Tera Ceia Bay Community Development District (the **“District”**) providing, operating and maintaining infrastructure improvements, facilities and services.

## Operations and Maintenance Activities

The Board of Supervisors (**“Board”**) of the District determines to undertake various operations and maintenance and other activities described in the District budgets (**“Budget”**) for the current Fiscal Year, attached hereto as **Exhibit “A”**. The District must obtain sufficient funds to provide for the operation and maintenance of the services and facilities provided by the District as described in the District’s Budget. The provision of such services and operations is a benefit to lands within the District. The District may impose O&M Assessments on benefitted lands within the District. It is in the best interest of the District to proceed with the imposition of the O&M Assessments in the amount set forth in the Budget and the ultimate O&M Assessment amount will be determined based on the annual Budget. The Board adopts its budget each year in accordance to a process outlined in the Florida Statutes, and so amounts are subject to change each year. The following table summarizes the total proposed Budget for the upcoming fiscal year.

**Table 1 - Total District Net Expenditures**

<b>Proposed Budget</b>	<b>Total Net Expenditures<sup>1</sup></b>
Fiscal Year 2016-17	\$276,209

## Assessable Property

As noted above, the District will fund the provisions of operation and maintenance services by imposing O&M Assessments on benefitted land, or parcels (**“Assessable Property”**). The O&M Assessments will be levied on these parcels on an equal assessment per unit square footage basis (as further described below). Each fiscal year, the District will certify for collection the O&M Assessments on all Assessable Property, apportioned proportionately to the Assessable Property, until the aggregate amount of the O&M Assessments equals the total net expenditures in the budget. The following tables summarize the Assessable Property and O&M

<sup>1</sup> Excluding early payment discounts and County collection charges.

Assessments for the current fiscal year.

**Table 2 - Assessable Property within the District**

<b>Land Use Type</b>	<b>Total Parcel Count</b>	<b>Total Unit Square Footage (SFLA)</b>
Condominia Improved (Condo)	550	782,524
Single Family Residential (SFR)	40	63,644
Clubhouse & Golf	2	17,225
<b>Total</b>	<b>592</b>	<b>863,393</b>

**Table 3 – O&M Assessments per SFLA**

<b>Net Expenditures</b>	<b>Total Unit Square Footage (SFLA)</b>	<b>Net Expenditures/Unit Square Foot</b>
\$276,209	863,393	\$0.32

**Assessment Allocation and Benefits**

The net expenditures identified in the Budget are used as a proxy for benefit, and are the basis upon which to assign and adjust the O&M Assessments to the proposed lots. The District utilizes residential unit square foot of air conditioned space (“SFLA”) as designated by the Manatee County Property Appraiser’s records as a proxy value for benefit and method for allocating the O&M Assessments to the Assessable Property.

In terms of allocation, the O&M Assessments are initially allocated to all developed property on a per SFLA basis. As additional units are constructed, the O&M Assessments are assigned to such newly built units on a per SFLA basis. The O&M Assessments would attach and be collected from the individual units, benefitted parcels identified in the Manatee County Property Appraiser’s non-ad valorem assessment roll. Manatee County’s assessment roll contains property information for each parcel within the District; it also contains the information needed by the Manatee County Tax Collector to apply the O&M Assessment on

each property's tax bill. Refer to the Assessment Roll attached hereto as **Exhibit B**.

In terms of benefit, the Budget functions as a spending plan to maintain and operate the system of improvements owned and operated by the District. The benefits are, of course, the operation and maintenance services described in the Budget with estimated net expenditures in the amount of \$276,209, excluding early payment discounts and County collection charges, for the current fiscal year.

As articulated previously herein, since it is expected that constructed residential property will have peculiar benefits from the Budget at the time that such individual units are built, that are in excess of the benefits that will be conferred on the balance of property in the District, such as vacant un-platted land, grazing land, golf course range property and other non-residential land, the O&M Assessments will attach to constructed buildings only.

#### *O&M Assessment Standard*

To fund the Budget, the District levies special assessments, which are pledged to fund operation and maintenance expenditures identified in the Budget. Under Florida law, a valid special assessment that is made pursuant to District legislative authority requires that the property assessed must (1) derive a direct and special benefit from the improvement or service provided and (2) that the assessment must be fairly and reasonably apportioned among properties that receive the special benefits. See Sections 170.01 – 170.02 of Florida Statutes.

Although the general public outside the District will benefit from the Budget expenditures, such benefits are incidental. The Budget meets the needs of the developed property within the District, as well as provides benefit to all residential property within the District. Since the Budget expenditures are not necessary for neighboring developments, the property owners within the District are therefore receiving special benefits not received by those outside the boundaries, and direct and cumulative benefits accrue mainly to residents. The benefits are quantified and assigned to parcels based on SFLA.

#### **Preliminary Assessment Roll and Collection**

A Preliminary Assessment Roll is attached. The District expects to bill and collect via the County's property tax bill.

#### **Conclusion**

The Budget will be utilized for common District purposes. These O&M Assessments will be levied over all Assessable Property on a fair and equitable basis as described herein. The Assessable Property will receive benefits in excess of the allocated O&M Assessments. Accordingly, this is an appropriate District approach that will significantly benefit the Assessable Property and enhance the District.

### *Special Benefit*

The Budget will provide special benefit to parcels within the District. The Budget adds to the entire development. The Budget yields benefits to parcel owners in terms of meeting maintenance and operational needs and increasing property values.

### *Assessment Apportionment*

The assessments are fairly and equally apportioned over all Assessable Property. The benefits are quantified and assigned to parcels based on SFLA.

### *Reasonableness of Assessment Apportionment*

It is reasonable, proper and just to assess the costs of the Budget against lands in the District. As a result of the Budget, properties in the District receive special benefit and increase in value. Based on the premise that the Budget makes the properties more valuable, in return it is reasonable for the District to levy the O&M assessments against the Assessable Property within the District. The benefits will be equal to or in excess of the assessments thereon when allocated.

### *Best Interest*

The District provides for delivering operation and maintenance services in a timely, orderly, and efficient manner. It can economically and efficiently provide the amount and quality of services required by the public. The District provides a mechanism to (i) fund the Budget at a relatively low cost and (ii) on a timely, “pay for itself” type basis. The exercise by the District of its powers is consistent with applicable with state law. It is in the best interest of the District.
